

Meet the Masters

25 - 27th July 2025
Bangkok Marriott Hotel The Surawongse Thailand

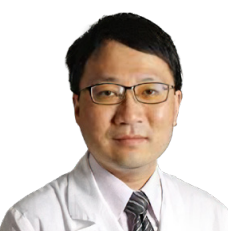

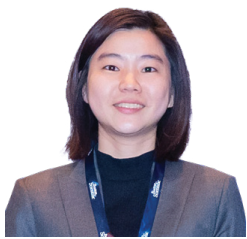

Course Overview

Meet the Masters is Boston Scientific’s premier annual educational event for Rhythm Management in the Asia Pacific region. Highly regarded by program directors, faculty, and graduating EP fellows, it offers comprehensive training that bridges the gap between fellowship and clinical practice.

Program Highlights

- Interactive Learning:** Fellows engage directly with leading electrophysiology experts in dynamic sessions that emphasize real-time feedback, deep learning, and ongoing mentorship beyond traditional lectures.
- Comprehensive Curriculum:** Covering core topics in clinical electrophysiology, device therapy, and arrhythmia management, the program features case-based discussions and expert-led Master Classes for a practical, well-rounded education.
- Regional Collaboration:** Bringing together fellows from across Asia Pacific, the program promotes peer learning, cross-cultural exchange, and broader clinical perspectives to prepare participants for diverse real-world practice.

Faculty

 <p>Prof. Kyoko SOEJIMA Kyorin University Hospital JAPAN</p>	 <p>Dr. Joseph YS CHAN Prince of Wales Hospital HONG KONG</p>	 <p>Prof. Fa-Po CHUNG Taipei Veterans General Hospital TAIWAN</p>	 <p>Dr. Abdul Raqib BIN ABD GHANI Sultan Idris Shah Hospital MALAYSIA</p>

Agenda

All times are local Bangkok time

- | | |
|------------------------------------|---|
| 25 July 2025 (18:00) | Welcome Reception |
| 26 July 2025 (08:00 -17:30) | Cardiac Anatomy for EPs
Complex SVT Diagnosis
Principles of Ablation Biophysics
Tips & Tricks of Transseptal Puncture
Advanced Imaging in the EP Lab
Advanced AF Ablation Strategy
Left Atrial Appendage Closure procedural skills and beyond
Complex Atrial Macroreentry
Recognition and Management of complications in the EP lab |
| 27 July 2025 (08:00-13:00) | Troubleshooting EGM
Physiologic Pacing: which patient benefits
Entrainment techniques and 3D mapping
Ablation of Ventricular Tachycardias
PVC site of origin – ECG analysis, considerations & tips and tricks
Fellows Case Competition* |

*All fellows are encouraged to enter the **case competition**. To participate, please submit a 12-minute presentation on a complex procedure, complication management, or advanced/novel technique in the treatment of a complex arrhythmia. Please email janet.lange@bsci.com by **Friday 4th July** with your case study. The **top 4 submissions** will be selected for **live judging by program faculty**, and the **winner** will be **invited back as a guest speaker** for next year’s Meet the Masters program. We look forward to your innovative and insightful cases
